

NRSWA Location and Avoidance of Underground Apparatus

Aims

To provide both Operatives and Supervisors with the skills and knowledge to carry out cable avoidance work in-line with the current NRSW Act in order to safeguard themselves and others.

By the end of the course delegates will be able to:

- Understand the basic principles of the current NRSW Act and standards
- Identify potential risks to themselves and others
- Read and understand site plans
- Operate cable avoidance tools in order to avoid or locate underground apparatus

Who Attends

This Location & Avoidance of Underground Services course is designed for Operatives and Supervisors who have to locate underground apparatus for work on carriageways, footways or similar.

Course Content

- New Roads & Street Works Act
- Basic principles of location and avoidance of underground services
- Hazard identification and the risks associated with them
